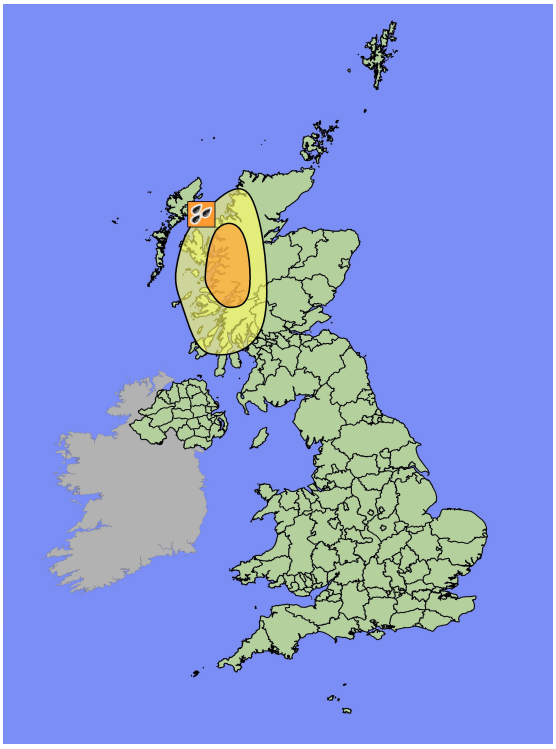
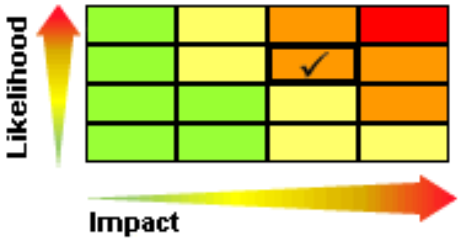
National Severe Weather Warning Service





Chief Forecasters Assessment
There is high confidence for this event with consistent signals over the last 24 hours. The most likely location for highest totals seems to be the western upslopes of Argyll and Bute and southwestern parts of Highland.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **18:00 on Tue, 05th Apr 2011** until **18:00 on Wed, 06th Apr 2011**

A prolonged period of heavy rain will develop late on Tuesday and continue through Wednesday, giving totals of 80 to 100mm in the Western Highlands, and perhaps 120mm locally.
